About the Seminar

Speaker will provide an overview of the history of reclamation in Hong Kong. He will then discuss the methods of reclamation and construction of seawall - past and present, and the use of marine plant. He will touch on the environmental impacts caused by large scale reclamation. Lastly, he will highlight the challenges and innovations developed by engineers.

About the Speaker

Mr. CHENG Tak Sum has over 40 years of experience in heavy civil construction covering reclamation, roads and drainage, tunnels and site formation. He has served various senior supervisory and management positions in top local contractors. He is a well-known engineer in the construction industry.

Continuing Professional Development (CPD)

Attending members will be issued with a certificate acknowledging 1.5 hours of CPD. A cost of HK\$20 will be levied for each non-member or attendee who is neither affiliated with the Organiser, Co-Organiser, Support Australia Group nor a member of the supporting organisation(s) requiring a CPD certificate.

Notice for Registration

- Prior registration is required. The number of participants is limited to 100 and priority will be given to members of Organiser, Co-Organiser and Supporting Organisations.
- If typhoon signal no. 8 (or above) or the rainstorm warning (black) is hoisted or announced to be hoisted in effect within two hours prior to the start of the visit, the visit will be cancelled without further notice.
- Successful applicants only will be confirmed.
- If you have any queries, please email Dr Alex Cheung at keawhc@gmail.com
