

Thought Leadership Forum on Digital Design

Future of Engineering Design in the age of Digitalisation. This forum looks at the changes and latest in engineering designing tools with the use of technology in Hong Kong.

OVERVIEW

The art of digital design, enables engineers and designers to explore possibilities and develop innovative solutions in a virtual environment.

From drawings to simulations and 3D models, engineers are increasingly using advanced technologies to capture data and craft design in a digitised environment. With the use of BIM, Digital Twins VR and AR, engineers are able to explore their innovative and creative minds in the digital world, before transferring these designs in the real world.

Come and listen as three speakers share their knowledge over presentations and panel discussions.

SPEAKERS

Simon Ng

Technical Director and Head of BIM | WSP Greater China

Sr. Michael Wong

Founding President | The Hong Kong Institute of Civil and Building Information Management

Thomson Lai

Executive Director - Innovative Solutions | AECOM

Date

10 / 08 / 2019 - 09:00 am to 12:00 pm

Registration Closes

09 / 08 / 2019 06:00 pm

Register at: <https://portal.engineersaustralia.org.au/event/login/0F2A5BAC-89D8-44C8-8D5D-7FB6AF70DA03>

Venue

Room AG 206
Hong Kong Polytechnic University
11 Yuk Choi Rd, Hung Hom
Hung Hom

Event Contact: Engineers Australia International Team
